Billing—CPT Coding

It is your responsibility to determine correct CPT codes to use for billing. While this catalog lists CPT codes in an effort to provide some guidance, CPT codes listed only reflect our interpretation of CPT coding requirements and are not necessarily correct. Particularly, in the case of a test involving several component tests, this catalog attempts to provide a comprehensive list of CPT codes for all of the possible components of the test. Only a subset of component tests may be performed on your specimen. You should verify accuracy of codes listed; and where multiple codes are listed, you should select codes for tests actually performed on your specimen.

DECATUR MORGAN HOSPITAL REFERENCE LABORATORY ASSUMES NO RESPONSIBILITY FOR BILLING ERRORS DUE TO RELIANCE ON CPT CODES LISTED IN THIS

CATALOG. For further reference, please consult the CPT Coding Manual published by the American Medical Association; and if you have any questions regarding use of a code, please contact your local Medicare carrier.
